## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

This Office Action is in response to the amendment filed 31 March 2003.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1-22 are indefinite because they are referring to a first semiconductor layer with a plurality of first conductive type semiconductor regions formed on a surface of the semiconductor layer where the second conductive type layer surrounds the first semiconductor regions with portions of the semiconductor layer therebetween. It is unclear how the structure of the light-receiving device will be formed when the second conductive type semiconductor region is formed on the surface of the first semiconductor layer and surrounds the plurality of first semiconductor regions that are formed in the first semiconductor layer. The limitations are unclear and therefore do not clearly distinguish the invention.

### ***Response to Arguments***

Applicant's arguments filed 31 March 2003 have been fully considered but they are not persuasive. The amendment has been noted but the claims are still vague and

Art Unit: 2822

indefinite in regards to the first semiconductor layer and the first and second conductivity type regions and how the second semiconductor region is formed on the first semiconductor layer and the first semiconductor regions are formed being formed apart from each other with the first semiconductor layers being formed between the first and second semiconductor regions.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
